Muhammad Ibrahim Butt

Software Engineer | AI Evaluation & Coding Benchmarks

Faisalabad, Pakistan · Remote worldwide
m.ibrahim8325@gmail.com · +92 311 8663209
AI evaluation portfolio · LinkedIn · GitHub

PROFESSIONAL SUMMARY

Software engineer with 6+ years of backend and automation experience, now also building coding benchmarks and evaluating AI agents. Authored six coding-agent tasks with 90 automated behavioral checks, led a 10-person evaluation pod, and created/reviewed protocols across 500+ scenarios. Combine production engineering with structured human review and reproducible testing.

EVALUATION & ENGINEERING SKILLS

Evaluation: LLM evaluation, function calling, tool-use reasoning, rubric design, pairwise comparisons, automated grader review, RLHF

Benchmarks: Python, Pytest, Docker, Linux, CLI tools, reference solutions, behavioral checks

Applied engineering: Laravel/PHP, C#/.NET, SQL, REST APIs, CI/CD, RAG, LangChain, Azure AI

SELECTED AI EVALUATION EXPERIENCE

AI Agent Evaluation Expert | Mindrift

Jul 2026 – Present · Contract · Remote

- Evaluate coding-agent behavior and correctness across software-development tasks using structured rubrics and pairwise comparisons.
- Audit automated grader transcripts for scoring quality and consistency; provide feedback for agent training.

Full Stack Engineer | AfterQuery Experts

May 2026 – Oct 2026 · Contract · Remote · AI evaluation task author

- Authored six coding-agent evaluation tasks with reproducible Docker environments, reference solutions, and 90 automated behavioral checks.
- Built test harnesses for debugging, backend, security, and compiler tasks; reviewed difficulty and resistance to shortcuts.

Pod Lead | Turing

Aug 2025 – Apr 2026 · Contract · Remote

- Led a 10-person AI trainer pod focused on function calling, tool-use reasoning, and multi-step tasks.
- Created and reviewed evaluation protocols across 500+ scenarios; translated recurring failures into clearer reviewer guidance.

EVALUATION INTERFACE PROJECT

Designed and developed a quiz-style review interface using nine to ten questions to assess tool selection, parameter grounding, and response completeness. Captured structured human feedback for an RLHF pipeline. Case study and synthetic rubric example

ADDITIONAL AI EVALUATION EXPERIENCE

AI Evaluator — Audio Agent Evals | Meridial Marketplace, by Invisible

Jul 2026 – Oct 2026 · Contract · Remote

Reviewed voice/audio agent outputs for response quality and correctness, contributing human feedback for training and calibration.

Contractor — AI Evaluation | Mercor

Nov 2025 – Jan 2026 · Contract · Remote

Compared Claude outputs for reasoning, instruction following, safety, and tool-use correctness; documented recurring failure patterns.

PRODUCTION ENGINEERING EXPERIENCE

Senior Software Engineer | Linx Computations Inc.

May 2024 – Present · Full-time · Remote

- Build Laravel/PHP and C#/.NET platforms for retail operations and QuickBooks Desktop integration.
- Reduced desktop startup from 2–3 minutes to about 10 seconds through data-loading and caching improvements.
- Automated tax and reporting workflows across 10,000+ invoices.

Freelance Software Engineer | Self-employed

Jun 2019 – Present · Project-based · Remote

Deliver backend and full-stack applications for direct clients and through Fiverr (since Aug 2020), including legal operations and job-discovery platforms.

Senior Software Engineer | DevXen

May 2024 – Jul 2025 · Part-time · Pakistan · Hybrid

Tuned SQL and APIs, developed deployment automation, and built C# reporting tools that reduced generation from hours to minutes.

Microbeck Private Limited

Senior Software Engineer | Jul 2022 – Apr 2024 · Full-time

Modernized backend delivery with Docker, AWS, Redis caching, CI/CD, and query optimization.

Software Engineer | Aug 2021 – Jun 2022 · Full-time

Built Django/JavaScript dashboards and process automation, saving 15+ hours per week.

Web Developer | Jul 2020 – Oct 2020 · Part-time

APPLIED AI PROJECT

AI PDF Chatbot: Built PDF ingestion, local MiniLM embeddings, cosine-similarity retrieval, and Groq-backed answers with a Streamlit interface. Explored a separate Flask knowledge-base prototype. Source code

EDUCATION & CERTIFICATIONS

B.S. Computer Science, 2021
